Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?

Q32. Recent tax credits for movie companies have resulted in 14 movies made in MA in the past 12 months. Proponents say the tax credit is good because it brings added jobs and new money into the state. Opponents say that a tax credit for movie companies is bad policy because it costs the state more than it is worth, given other state programs that need revenue. Which is closer to your view?
