Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?

Q30. The state Department of Children and Families has recently come under fire when a five year old boy went missing from his home while under their monitoring. Governor Patrick has claimed that the failures of the DCF are due to a few incompetent employees. Others argue that the problem is systematic throughout the department. Which is closer to your view?
