

00:02
(upbeat music)
00:10
- One of my favorite memories was
00:12
actually one of my work studies.
00:14
I worked at student leadership and involvement office
00:17
in Sawyer, and it was a great opportunity
00:19
to meet people that I wouldn't see in a bunch of my classes
00:23
and really get to gather with the Suffolk community
00:25
and see all of the different programs and groups.
00:28
- Teaching assistant is one of my greatest opportunity.
00:31
Teaching gives us things to give lecture,
00:33
help students, support them.
00:35
Advise them about platforms, about how to use analytics.
00:40
It's a huge memory for me because I learned new culture.
00:44
- Probably when I wants to see the whales with Dr. Merrill,
00:47
which was a very big pro of taking marine biology.
00:50
- Participating in the MBA case competition.
00:54
- When the Boston Red Sox won the World Series in 2018.
00:58
Classes were canceled and Suffolk
00:59
was on the parade route, which was super fun.
01:02
- Watching the Patriots win the Super Bowl against
01:04
the Falcons freshman year, and then getting to
01:07
watch that parade go across Tremont Street
01:10
right in front of my residence hall
01:12
and not having to go to class that day.
01:15
- Definitely celebrating the Patriots
01:16
and Red Sox parades each year.
01:19
Having the opportunity to close down campus
01:21
and celebrate the teams and the city of Boston
01:25
as a school community.
01:26
- Going on alternative spring break
01:28

to Clarkesville, Georgia.

01:29

Getting to build the whole bottom half of a house

01:33

for Habitat for Humanity, the bonds I made with

01:36

the students from Suffolk and the people from Habitat

01:40

are just some I'm never going to forget.

01:42

- Just coming to class and being able to work hard

01:46

side by side with all my friends.

01:50

- My first large scale event as President

01:53

of the Asian American Association.

01:56

Our annual cultural showcase.

01:58

- I think as a student, my favorite memories

02:01

are always those, in a weird way,

02:03

those late nights, that I was struggling

02:05

to put a project together or either studying

02:08

because I look back and it's really a reflection

02:10

of growth within me and my character.

02:12

And it's made me who I am today, and I'm very grateful.

02:15

And those are memories that I'm never going to forget.

02:17

- During my birthday two years ago,

02:19

when all my friends from the philanthropy center

02:22

bought me a cake to celebrate.

02:25

That was really nice.

02:27

I'm going to miss all the people that I met there

02:30

and all the experiences that we shared during these years.

02:34

- It's really hard to pick one memory

02:35

from my time as a Suffolk student,

02:38

but I absolutely loved serving as this year's

02:40

Beta Alpha Psi president.

02:41

- My lunch breaks with all my friends and family

02:43

that we used to go to Florina's and get pizza every day.

02:47

- My journey program trip to Florida.

02:52
I had the opportunity to swim with manatees,
02:55
which changed my life because I started to become
02:58
more of an empathetic leader on campus.
03:01
And started to understand other's needs before mine.
03:05
- It was when I was still living in the dorms,
03:07
two of my friends were living off campus
03:10
and we would always meet every Thursday
03:13
at 12:15 during our activities period
03:16
we would meet at the food trucks in the Boston Common.
03:19
We would get lunch together.
03:20
And it was just like my favorite tradition
03:22
that we did every week.
03:24
- The best memory would probably be when I ran
03:26
for vice-president for Suffolk SGA.
03:29
Not just one memory in particular,
03:32
but the whole experience as a collective unit,
03:34
just because it pushed me out of my comfort zone.
03:36
And, you know, I got to meet a lot of people
03:39
who I normally wouldn't be talking to.
03:40
I think that experience really taught me, you know
03:43
that I can do more than just what my degree says or
03:46
I can do more than just show up and study and take a test.
03:50
- My favorite memory was definitely
03:51
studying abroad in Italy.
03:53
I was in Rome, I got to meet lots of people
03:56
and just kind of experience, you know
03:58
a new way of living and a new culture.
04:03
- I had the opportunity to,
04:05
you know, start a club called Unspoken Feelings.
04:07
And that club was created, you know
04:10

drug out a little swag at the Suffolk
04:12
and give the opportunity for other talented people
04:15
on campus and around Boston to showcase their talent.
04:19
- Mine, of course, you know, having the opportunity
04:21
to serve as the student body president
04:23
for the last two years,
04:24
that's something that I will forever hold
04:26
near and dear to my heart.
04:29
And of course, all the concerts that our class
04:32
has been able to attend.
04:33
First being, Post Malone our freshman year,
04:37
and then Tory Lanez our junior year.
04:40
And just being able to put that concert together
04:43
was honestly a dream come true.
04:45
- Attending the journey leadership winter break program
04:49
where we got to engage in experiential learning
04:53
by swimming with manatees in Crystal River, Florida.
04:57
And then taking that, what we learned on that trip
04:58
and bringing it back to our roles at Suffolk
05:01
and our roles beyond the institution.
05:04
- My favorite memory during my time at Suffolk
05:06
was my time at Pasion Latina.
05:08
Every practice, every team outing,
05:10
every performance was just the best of times.
05:14
(upbeat music)
