MEDICAL AMNESTY

WHAT TO DO WHEN YOU OR A FRIEND NEED HELP
MEDICAL AMNESTY

If you’re on campus and there is a medical emergency due to alcohol or drug use, dial 617-573-8111. Call 911 if you’re off campus.

If you seek help in any way from the University Police, Residence Life & Housing staff, or local police, you may receive medical amnesty through the Suffolk University Student Conduct System.

You may also receive it if you contact these sources for another student with whom you stay until the professionals arrive. If you are granted medical amnesty, you may have to complete educational or other sanctions. Also, the University reserves the right to inform your parents/guardians of any such incident.

Please note: Medical amnesty applies only in cases of alcohol and/or drug use. It does not extend to other Community Standards violations, including (but not limited to) the distribution of alcohol or drugs, vandalism, or assault. Students with a pattern of ongoing alcohol and/or drug use may not be granted medical amnesty.

Survivors of sexual misconduct may also be eligible for amnesty for their alcohol or drug use at the time of the incident. In addition, the University may or may not report the incident to your parents/guardians.
