

Expanded Classroom Requirement

The Expanded Classroom Requirement (ECR) asks students to combine theory with practice, by merging experiences inside and outside the classroom. All students entering the college of Arts and Sciences with 45 or fewer credits as of fall 2007 must complete one Expanded Classroom course or program. ECR Courses and programs will be indicated in the course bulletin each semester. All courses and programs that satisfy this requirement must be approved by the ECR Oversight Committee.

ECR courses and programs are credit-bearing experiences that contain one of the following elements:

Study Tours- On study tours, a Suffolk University professor leads students in the study of a subject matter that involves substantial travel away from the campus in the context of a course.

Field Work- Fieldwork involved the practical application of methods and theories being studied in a course.

Internships and Cooperative Learning- Internships and cooperative learning include a wide variety of educational experiences in the context of a course in which the student works in a professional, educational, or service context.

Service Learning- Service learning involves working with a community service provider in the context of a course.

Linked Learning- This category includes all activities that satisfy the expanded classroom learning goals of the ECR but which do not fall into any of the other categories listed above. The ECR can be fulfilled by a linked learning activity for which the student finds a faculty sponsor for a Directed Study course or similar faculty mentored course. Once the student finds a faculty mentor, then the mentor must submit the proposal for approval to the ECR Oversight Committee during the semester prior to completing the requirement.

PLEASE NOTE: Not all sections of the following courses fulfill the Expanded Classroom Requirement. It is the responsibility of the students to refer to their course syllabus, professor and/or academic advisor to ensure that the section they are registered for fulfills the Expanded Classroom Requirement.

A complete list of available ECR Courses can be found on our downloadable student documents section: <http://www.suffolk.edu/college/26186.html>
