

When I graduated from high school, I didn't know if I was going to be able to keep up with all the homework and papers at college, however, the professors at Suffolk Madrid really help us do our best. The staff also organizes writing and study skills sessions that help enormously.

Gabriela Feijóo, Major: Public Relations

During my time in Spain I realized how much I like the person that I am becoming. While living in Madrid and traveling across Europe, I learned about other people and their cultures, which also helped me see myself more clearly. This year I have become more confident, independent, and mature; all of which I owe to my remarkable experience at Suffolk Madrid.

Bea Wilson, Major: International Affairs, Minor: Spanish

Who's a fan?

We are.

From the first day of classes, it was evident that my professors truly desired to see their students succeed. Moreover, small class sizes and an easily approachable staff ensured that my transition from a high school learning environment to that of a university was as smooth as possible. The best part is the way that SUMC facilitates the balance between academics and time to experience European life. It was the perfect way to begin my collegiate career and a life-changing opportunity.

Nicholas DiCicco, Major: International Affairs

Having spent two semesters here now, Suffolk Madrid has fulfilled all my original expectations - and more. I have made many great friends from around the world, experienced the best that Spanish culture has to offer, and improved my Spanish language skills - all whilst managing to study at the same time! The city is amazing and I could not have asked for a more hospitable reception by both everyone at Suffolk Madrid and the Spanish people themselves. It truly is a great privilege to study and live here, and it is an opportunity that would be a waste not to take.

James Coghlan, Major: Global Business

Coming to Suffolk Madrid has been an amazing experience that I will never regret. The first week we arrived, the university planned a welcome trip, and every weekend since then there have always been different activities for us to do. Bicycle tours around the city, volunteer opportunities, skiing, bullfights, soccer matches, are just some of the activities that Suffolk Madrid has offered. It is a great opportunity to get an American degree in a European environment and even have fun while doing it!

Juliana Uribe, Major: Communication Studies
