Additional Courses: Complete five additional elective courses from the following list. Please note that the graduate psychology program at Suffolk offers a neuropsychology concentration within its APA-accredited Clinical Psychology program. We provide the recommended coursework (depending on adequate enrollment) towards eventual Board Certification in Neuropsychology as an APA-approved area of specialization (i.e., to conform to the requirements of the American Board of Professional Psychology / American Board of Clinical Neuropsychology, or ABPP/CN. Please consult the block schedule and program manual for details regarding elective course planning for the neuropsychology concentration.

Electives vary by year; a maximum of three electives (9 credit hours) may be taken from the following list (non-content courses):

PSYCH 780-Early Research Training Plan Preparation
PSYCH 781-Comprehensive Exam Preparation
PSYCH 782-Dissertation Proposal Preparation
PSYCH 783-Dissertation Research

The following courses are also offered for elective credit:

PSYCH 751-Psychopharmacology
PSYCH 772-The Teaching of Psychology (required as prerequisite for teaching as an adjunct in the department)
PSYCH 795-Human Neuropsychology I (offered at Boston University)
PSYCH 796-Human Neuropsychology II (offered at Boston University)
PSYCH 747- Adult Neuropsychological Assessment
PSYCH 792-Intro to Neuropsychology
PSYCH 793-Adult Neuropsychological Syndromes
PSYCH 797-Functional Neuroanatomy

Advanced level courses: The following zero-credit courses can be taken once students have completed all required coursework.

PSYCH 000-Dissertation Residency

Students who have completed all required program courses (72 credits) and who are working on their dissertations must register for this course every fall and spring semester (excluding pre-doctoral internship semesters) until the doctoral degree is conferred. This course provides students with full-time status. It confers no credit and is not graded. Tuition is currently set at one credit hour per semester.

PSYCH 777-Advanced Practicum (Prerequisite: 744).

Students must concurrently register for PSYCH 000. Enrollment in this course requires the consent of the Director of Clinical Training. It confers one credit and is graded pass/fail. Tuition is currently set at one credit hour per semester.

PSYCH 801 – Internship

Required for all predoctoral internship students in the fall and spring semesters of the internship year.

This course provides students with full-time status. It confers no credit but is graded pass/fail. Tuition is currently set at one credit hour per semester.

72 credits required for participation in predoctoral internship. See program manual for details

Full-time enrollment = 4 courses per semester

48 Credits + Completed Early Research Plan = M.A. in Psychology

PSYCH 772-The Teaching of Psychology is a prerequisite to teaching as an adjunct in the department.

Dissertation Proposals must be approved by November 1st of the year of application to Predoctoral Internships.

Upon completion of 72 credits, students are required to enroll in PSYCH 000-Doctoral Continuation, or Psych 801-Internship until doctoral degree is conferred.

Doctoral degrees cannot be conferred until 1600 hours of the predoctoral internship are completed.
