

## **Undergraduate Research Assistantship**

### ***Suffolk University Acceptance, Mindfulness, and Emotion Lab***

Each semester, we look for one or more undergraduate research assistants to work in the lab. Our lab is involved in multiple research projects involving Acceptance and Mindfulness approaches for working with trauma, anxiety disorders, and substance use related disorders.

#### ***Research assistants will:***

- Gain valuable experience in conducting empirical research in psychology
- Work directly with faculty and graduate students on one or more research project
- Earn course credit

#### ***Typical responsibilities include:***

- Conducting literature reviews
- Assisting in recruitment and data collection
- Coding and entering data
- Attending lab meetings/research discussions

#### ***Requirements:***

- Current enrollment at Suffolk
- Declared major or minor in psychology
- Sophomore, Junior, or Senior class standing
- Overall GPA of at least 3.0

It is preferred (but not required) that applicants have already taken Statistics (Psych 215) and Research Methods (Psych 216).

Feel free to contact any lab members with questions:
