Advanced level courses: The following zero-credit courses can be taken once students have completed all required coursework.

**PSYCH 000-Dissertation Residency**

Students who have completed all required program courses (72 credits) and who are working on their dissertations must register for this course every fall and spring semester (excluding pre-doctoral internship semesters) until the doctoral degree is conferred. This course provides students with full-time status. It confers no credit and is not graded. Tuition is currently set at one credit hour per semester.

**PSYCH 777-Advanced Practicum (Prerequisite: 744).**

Students must concurrently register for PSYCH 000. Enrollment in this course requires the consent of the Director of Clinical Training. It confers one credit and is graded pass/fail. Tuition is currently set at one credit hour per semester.

**PSYCH 801 – Internship**

Required for all predoctoral internship students in the fall and spring semesters of the internship year. This course provides students with full-time status. It confers no credit but is graded pass/fail. Tuition is currently set at one credit hour per semester.

*72 credits required for participation in predoctoral internship, 48 credits required to apply for predoctoral internship. See program manual for details*

*Full-time enrollment = 4 courses per semester*

*48 Credits + Completed Early Research Plan = M.A. in Psychology*

*PSYCH 772-The Teaching of Psychology is a prerequisite to teaching as an adjunct in the department.*

*Dissertation Proposals must be approved by November 1<sup>st</sup> of the year of application to Predoctoral Internships.*

*Upon completion of 72 credits, students are required to enroll in PSYCH 000-Doctoral Continuation, or Psych 801-Internship until doctoral degree is conferred.*

*Doctoral degrees cannot be conferred until 1600 hours of the predoctoral internship are completed.*

<sup>1</sup> The graduate psychology program at Suffolk offers a neuropsychology concentration within its APA-accredited Clinical Psychology program. We provide the recommended coursework (depending on adequate enrollment) towards eventual Board Certification in Neuropsychology as an APA-approved area of specialization (i.e., to conform to the requirements of the American Board of Professional Psychology / American Board of Clinical Neuropsychology, or ABPP/CN).
