

One-on-One Math Help

Math/C.S. Support Center

Fenton 636

Spring 2011

In addition to our drop-in help, the Math/C.S. Support Center is pleased to announce a limited amount of **one-on-one** tutorial help in course content for all freshmen level mathematics courses.

The one-on-one help will be provided by caring upper-level undergraduate and graduate students, selected for their mathematical skills and teaching ability. Tutors will answer questions about material presented in your class, go over problems similar to assigned homework, help you review for exams, and work on strategies for studying math. Tutoring sessions will be tailored to the needs of the student.

Our services are always free of charge, and those who register for one-on-one help can also take advantage of the drop-in services offered by the Center.

To participate in this service, students need first to register. Students can do this by either making an appointment to register with Prof. Waldman in the Math/C.S. Support Center or by coming to the Math/C.S. Support Center to meet with Prof. Waldman during one of the following open registration hours:

Mondays 2 PM - 4 PM
Tuesdays 1 PM - 2 PM
Thursdays 10 AM - 11 AM

If you have any questions or would like to make an appointment to register for a one-on-one tutor, please contact Prof. Waldman via email at waldman@mcs.suffolk.edu or via phone at (617) 973-5350.
