

00:00 (upbeat music)  
00:03 - You don't have to declare a concentration at all,  
00:06 if you prefer.  
00:07 One of the things that many students decide to do  
00:09 is get four different courses  
00:11 so they get a wider range of the specialty.  
00:14 So, for example, they might take a supply chain course,  
00:16 and a business intelligence course  
00:17 and a healthcare course,  
00:19 so they can get a wide range of knowledge and skill sets  
00:22 and that is something that is completely up to you.  
00:25 You decide, you can decide on day one  
00:27 where you want to concentrate  
00:29 or you can decide once you've finished your core courses.  
00:32 The key is you have four electives  
00:34 and you're using those electives to concentrate.  
00:37 So, you need to think about timing wise,  
00:39 you can't declare concentration too late in the game,  
00:41 because if you've done all your electives,  
00:43 then it will be too late,  
00:44 but you have plenty of time to do that,  
00:46 because most people don't do the electives  
00:47 until the end of their program.
