

00:00 (upbeat music)
00:02 - Students interested in investments.
00:04 Will be learning a wide range of topics,
00:07 focusing on, capital market sprawl
00:11 and then specifically security issuance,
00:14 different topics in asset management.
00:17 How do you do evaluation of, different securities,
00:21 then, portfolio management.
00:23 Also, it's, noteworthy that our concentration
00:28 in investments here at Suffolk.
00:30 The curriculum incorporates at least 70%
00:33 of the CFA program candidates.
00:36 A body of knowledge.
00:37 And then as a result, it's,
00:40 accepted by the CFA University Affiliation Program.
00:44 So, ultimately students are going
00:46 to be excited to work for some of the very top
00:49 financial services companies.
00:51 Such as City Group or, State Street, or Fidelity.
00:56 And in various different roles
00:57 depending what their interest is.
00:59 Whether it's, equity or fixed income,
01:02 or derivatives.
01:03 And they could be working on,
01:05 different research roles such as analyst,
01:07 or in trading positions.
01:09 But also, the area doesn't just limit,
01:11 you know asset management and equity evaluation.
01:15 But specifically students can be in the area
01:17 of investment banking and helping with
01:20 mergers and acquisitions or
01:22 equity offerings or bond issuance's.
01:26 So, when they finish the concentration,
01:29 students can analyze investments,
01:32 can put together portfolios,
01:34 or help their clients know how to build portfolios,
01:38 and focusing on portfolio strategies.
