

00:01 Hi. My name is Cat. And I'm a government major here at Suffolk University from Taunton, Massachusetts.
00:06 Welcome to the Smith Residence Hall. Let me show you around.
00:15 The cafe here in Smith Residence Hall is the perfect place for a student to grab breakfast, lunch, dinner or a snack.
00:21 The staff even host late night ice cream socials for students to relax and have fun.
00:26 If you grab a seat by the window, you have a great view of the Boston Common.
00:33 My first year I lived in a double. Students can also live in a triple or a quad.
00:38 One of my favorite things while living here was coming out to the common area to hang out with my friends and have fun.
00:43 Resident assistants would often put on programs for us to hang out.
00:46 My favorite was a Disney paint night, where we got to sit around watching Disney movies and painting canvases.
00:53 My first year, I took advantage of Suffolk's programs called Living Learning Communities, where I lived with other honors students on my floor.
00:59 I had classes with many of these students. And my resident assistant was also in the honors program,
01:04 so they were able to help me with all of my honors related questions.
01:08 Today, I still live with my freshman year roommate.
01:10 It was a great opportunity living on campus and feeling like a part of the Suffolk community.
01:15 Thank you so much for letting me show you around Smith Residence Hall.
