All products may not be available in all states. This communication contains product summaries only. Coverage is subject to the language of the policies as actually issued. Surplus lines insurance sold only through licensed surplus lines producers. Chubb, 202 Hall’s Mill Road, Whitehouse Station, NJ 08889-1660.
Remote Behavioral Health Assistance

Where to turn when traveling abroad?
We’re With You: AXA’s Remote Behavioral Health Assistance

- Mitigate emergencies through accessible psychological care administered by US based specialists
  - Lack of mental health resources in many countries
  - Language and cultural differences can hinder success
- Immediate crisis intervention ensures safety and recovery
- Early intervention avoids escalation, preserves continuity of care which improves coping and decreases need for hospitalization
- Psychology assessment helps determine the best possible method of responding to the mental health concern
- Follow-up and continued support allows work and study programs to continue uninterrupted
- Integration with current medical and travel assistance services can add safety and security to those affected while abroad
Remote Behavioral Health Assistance

Access to mental and behavioral health support
- Masters and Ph.D. level behavioral health professionals
- Licensed Clinical Supervisors to provide clinical oversight and support
- Expert response and coordination for individuals in high risk crisis situations

Crisis24 Horizon Mobile App

- Requires data or Wi-Fi connection for full functionality
- Can be used 24/7 without detriment to device power usage, 3-5%
- Available for iOS and Android
- Search for Crisis24 Horizon Mobile in the App Store or Google Play Store
1. Download and Open the Crisis24 Horizon Mobile app

2. Enter your Suffolk email address and tap Sign In. This will take you to the login page where you will enter your Suffolk username and password to log in.

3. Follow the prompts to enable Push Notifications, Location Services, and Location Sharing to receive alert notifications based on your current location.

4. Enter your mobile telephone number when prompted. Be sure the format is correct and complete, with the + and country code included. Example: +16175738000
Update Your Phone Number

- Tap “Preferences” in the navigation menu, then “Manage Alert SMS Preferences”
- Tap “Profile Details” tab near the top left and then “Edit Profile Details”
- Scroll down to Phones and make any edits needed to the Mobile (Phone Label)
- Tap the “Submit” button
- You should keep this number up to date, especially while you are abroad
Enable Dashboard Help Card

Recommended for easy access so the Help Card appears at the top of the dashboard. Help Card only appears on dashboard, other pages will display an Assistance button. If not enabled the same Assistance button will appear on the dashboard.

- Tap “Preferences” in the navigation menu
- Toggle on “Dashboard Help Card”
Search for Location Intelligence

You can search for Locations Intelligence using the search feature in the top-right corner of the dashboard.

- Tap the magnifying glass in the banner at the top
- Search for the location in the box provided
- Tap the location to view intelligence information (Threat Zones, Risk Ratings, Alerts, Map)
Saved Locations

Add Saved Locations so you receive alerts for those locations as well as quick access to location intelligence.

- Tap “My Locations” in the navigation menu
- Tap “Add Saved Locations”
- Search for a location and tap on it to add it to your saved locations list
Location Intelligence is available for 200+ countries, 800+ provinces, and 400+ cities.

Each location is assessed with a risk rating on a 1-5 scale, in 0.25 increments. Locations receive an overall rating as well as ratings for categories, such as Security, Infrastructure, Health and Medical, Environment, Political and Entry/Exit. Detailed information related to these categories are available in the app.

Location Intelligence also gives you access to view Threat Zones (areas of higher risk).
You are encouraged to read through the location intelligence information provided in the app. Tap the INTEL tab under the location, then tap any category to read additional information.

The Entry/Exit category has useful information related to pre-departure, in transit, hotel and street information, including location-specific information for LGBTQIA+ travelers.
Crisis24 expert analysts work around the clock to identify, assess, and report on worldwide threats. This information is communicated as an Alert.

If enabled, you will automatically receive push notifications when an alert is published for a saved location or your current location. You can also configure an Alert Notification to define the criteria of the Alerts received directly via email or SMS. You can customize the Alert Notification Preferences by duration, severity/impact levels, categories, and locations.

- Tap “Preferences” from the navigation menu
- Tap “Manage Alert SMS Preferences”
- Tap “Add Alert Preference” to configure what alerts you wish to receive alert notifications about
What to do with Alerts

- Carefully read the information provided and follow any advice (avoid areas, remain in place, etc.)

- We strongly encourage you to “Send a Safety Check In” via the app
Advice Sheets

Crisis24's expert analysts provide over 150 pieces of advice and information for mitigating and/or avoiding threats on topics ranging from security threats to natural hazards. The full library of Advice is available directly in the Horizon Mobile app for you to explore.

- Tap “Advice Sheets” from the navigation menu
- Search titles of Advice Sheets
- Tap the advice to open the sheet

**Advice Sheets**

Health and Medical

Accidental Ingestions and Poisonings

Introduction

Whether operating in one's home country or abroad, accidental ingestions and unintentional poisonings are possible. A lack of detailed records in many countries and uncertainty about which substances have been reported as harmful can create the circumstances and/or environment where ingestions and poisonings can occur. Typical circumstances include:

- Ingestion of medication of unknown potency
- Incompatible medication administration
- Misunderstandings or language barriers between the pharmacy and patient,
- Exposure to toxic plants
- Environmental factors
- Ingestion of adulterated products or foods (including bioterrorism)
- Ingestion of substances without foreknowledge ("spiking drinks")

Seek Medical Attention

Seek medical attention immediately that causes any physical harm or discomfort occurs. Contact Poison Control or Emergency Services for instructions on first aid in an emergency and follow-up advice.
Local Emergency Contacts

For a life-threatening emergency, you can select the Local Emergency Contacts option from the dashboard or Assistance button to find local emergency service contact info.

- Tap “Local Emergency Contacts” from the Help Card on dashboard or Assistance button
- Use the information provided to communicate with the local emergency services
- Local emergency service calls must be dialed from outside of the Horizon app
Call 24 hour Hotline

The Call 24 Hour Hotline button automatically dials the dedicated emergency hotline service. Calling this hotline will connect you with a Crisis24 Response Coordinator who will assist with non-life threatening travel or security needs. The Hotline service is NOT for life-threatening situations. For life-threatening situations, use the Local Emergency Contact option.

- Tap “Call 24 hour Hotline” from the Help Card on dashboard or Assistance button
- Use the popup on the device to call the number to connect with a Response Coordinator
Safety Check-In

Safety Check-In allows you to share your current location along with an optional message to us. Use the Safety Check-In to confirm safe arrival at your destination, daily check-in when traveling in high-risk areas, and hourly check-in during an unusual situation. Safety Check-In service tells us that you are safe in your current location. Sharing your location is optional and can be disabled anytime.

- Tap “Send Safety Check-in” from the Help Card on dashboard or Assistance button
- Check the box to Share Location with Organization
- Add Optional Message in the box provided
- Tap “Send Safety Check-in” button

![iPhone images showing Safety Check-In feature]
Crisis Signal

Send a Crisis Signal if you need immediate assistance and cannot speak on the phone. This service is used to signal your request for travel, medical, or security assistance.

Note: Crisis Signals are NOT for life-threatening situations. For life-threatening situations, contact your local emergency services or defer to the 24/7 hotline.

- Tap “Send Crisis Signal” from the Help Card on dashboard or Assistance button
- Add any additional details in the box provided
- Tap “Send Crisis Signal” button
