```
Hello, my name is _____ and I am conducting a brief 6-question survey
for Suffolk University. Would you be willing to spend two minutes answering 6
questions?
            N=                                                   300 100%
            Continue ......................................  1      ( 1/ 87)  300 100%
GENDER
            N=                                                   300 100%
            Male ..........................................  1      ( 1/ 88)  143  48%
            Female ........................................  2               157  52%

S1. Thank you.  Are you currently registered to vote?
            N=                                                   300 100%
            Yes ...........................................  1      ( 1/ 89)  300 100%
            No ............................................  2                 0   0%

S2. How likely are you to vote in the upcoming election for Governor - would
you say you are almost certain to vote, will you probably vote, are the
chances 50-50, or that it is not likely you will vote in the General Election?
            N=                                                   300 100%
            Almost certain ................................  1      ( 1/ 92)  270  90%
            Probably vote .................................  2                30   10%
            50-50 .........................................  3                 0   0%
            Probably not ..................................  4                 0   0%
            Definitely not ................................  5                 0   0%
            Don't know ....................................  6                 0   0%

S3. Are you registered as a Democrat, Republican, Independent American, or
Independent/Non-partisan?
            N=                                                   300 100%
            Democrat ......................................  1      ( 1/ 95)  104  35%
            Republican ....................................  2                132  44%
            Independent American...........................  3                15   5%
            Non-partisan...................................  4                49   16%

S4. What is your age category?
            N=                                                   300 100%
            18-24 .........................................  1      ( 1/ 97)   9   3%
            25-34 .........................................  2                15   5%
            35-44 .........................................  3                27   9%
            45-54 .........................................  4                64   21%
            55-64 .........................................  5                66   22%
            65-74 .........................................  6                69   23%
            75+ ...........................................  7                47   16%
            Refused (DO NOT READ) .........................  8                 3   1%
