21. Recently there have been news reports about investigations of Hillary Clinton's e-mail communications during her tenure as Secretary of State. Instead of using the State Department e-mail server, she used a private e-mail server. She turned over hard copies of work-related emails and deleted emails she did not consider related to her service as Secretary of State. Three questions about this: first - Is this something that bothers you or not - yes or no?

21. Recently there have been news reports about investigations of Hillary Clinton's e-mail communications during her tenure as Secretary of State. Instead of using the State Department e-mail server, she used a private e-mail server. She turned over hard copies of work-related emails and deleted emails she did not consider related to her service as Secretary of State. Three questions about this: first - Is this something that bothers you or not - yes or no?

21. Recently there have been news reports about investigations of Hillary Clinton's e-mail communications during her tenure as Secretary of State. Instead of using the State Department e-mail server, she used a private e-mail server. She turned over hard copies of work-related emails and deleted emails she did not consider related to her service as Secretary of State. Three questions about this: first - Is this something that bothers you or not - yes or no?

21. Recently there have been news reports about investigations of Hillary Clinton's e-mail communications during her tenure as Secretary of State. Instead of using the State Department e-mail server, she used a private e-mail server. She turned over hard copies of work-related emails and deleted emails she did not consider related to her service as Secretary of State. Three questions about this: first - Is this something that bothers you or not - yes or no?

21. Recently there have been news reports about investigations of Hillary Clinton's e-mail communications during her tenure as Secretary of State. Instead of using the State Department e-mail server, she used a private e-mail server. She turned over hard copies of work-related emails and deleted emails she did not consider related to her service as Secretary of State. Three questions about this: first - Is this something that bothers you or not - yes or no?
