

00:00 (upbeat music)
00:01 - [Narrator] There's never been a better time
00:03 to get some good news.
00:05 And here's the best.
00:06 Suffolk said yes.
00:11 Suddenly your future is taking shape.
00:13 In a changing world, there's a whole new you
00:16 waiting to be created.
00:19 You might look downtown for inspiration,
00:21 right outside your residence hall's door,
00:24 helping local businesses and international firms
00:27 adapt to a changing world.
00:30 Perhaps we'll head out to our Madrid Campus
00:32 to dive into your education on the global stage
00:35 and explore the world.
00:39 Maybe your drive will take you up to an internship
00:42 with a view and hands on experience
00:44 working on high profile cases.
00:47 And all around, you'll find your purpose,
00:50 perhaps by applying cutting edge science
00:53 to solve pressing environmental issues.
00:56 Whichever way your curiosity takes you,
00:58 you'll always have support.
01:00 Your faculty mentors will guide you on your journey,
01:03 because at Suffolk, we're more than a university.
01:07 We're a community of critical thinkers, action takers
01:10 and leaders with purpose.
01:12 The skills you'll gain
01:13 while crafting your college experience
01:15 will be the ones that help you stand out
01:18 in the workforce of tomorrow.
01:20 No matter which direction you choose,
01:22 you'll become who you're meant to be.
01:25 Welcome to Suffolk.
