2020-2021
**CAS Faculty Research Assistant Positions**

## Art and Design

**Research Assistant Position:** 10 hours weekly
**Supervisor:** Prof. Ilona Anderson, Art & Design Department
**Contact:** 617.305.1778 or ianderston@suffolk.edu
**Description:** RA needs to assist with a number of projects, including inputting my animation cells into After Effects and other Adobe programs. If time permits, researching appropriate music for the various animations will be of value, as will maintaining the website used to display the animations.  Programming skills, and Photoshop and other Adobe skills will be beneficial.

## Biology

**Research Assistant Position:** 10 hours weekly
**Supervisor:** Prof. Annette McGehee, Biology Department
**Contact:** 617.573.8247 or amcgehee@suffolk.edu
**Description:** RA needed to assist with a research project involving the genetics and behavior of C. elegans.  Tasks include maintaining stocks of C. elegans worms, setting up and analyzing genetic crosses, performing and analyzing behavioral and PCR analyses.  This position requires attention to detail, and meticulous note-taking skills.   Prior lab experience is preferred.

## History

**Research Assistant Position:** 10 hours weekly
**Supervisor:** Prof. Pat Reeve, History Department
**Contact:** 617.973.5306 or preeve@suffolk.edu
**Description:** Research Assistant (RA) needed to assess the accuracy of data entry to an Excel spreadsheet from coroners' inquests conducted in Boston from 1775 through 1860. Additionally, the RA will engage in data tabulation to identify patterns in the habits of Bostonians who lived and worked outside from 1775 through 1860. The RA will also undertake research in relevant archival collections located in the Rare Book Room of the Boston Public Library and in relevant scholarship, should the latter research be necessary.
