BOSTON IS THE HUB OF NEW ENGLAND

Twelve courthouses are within one mile, including the First Circuit Court of Appeals (below), affording our students judicial internship opportunities throughout the year. One-fourth of Massachusetts judges are Suffolk Law alumni.

Boston is home to championship teams in baseball, football, basketball, and hockey. Many Suffolk Law grads work in sports law for organizations like the Red Sox and Patriots.

The best snowboarding and skiing in the East are a two-hour drive from Boston. Explore the slopes of New England.

Boston's coastal location comes with perks like whale-watching, fishing, and a harbor full of scenic island parks. You can reach the beaches of Cape Cod, Nantucket, and Martha's Vineyard by car, train, or boat.

America's oldest subway system, the "T," makes Boston's entertainment and nightlife accessible. Catch an outdoor concert in the Seaport District, then take a water taxi to the historic North End for Italian food.

The symphony, theater, ballet, opera, and world-class museums are all just a short stroll from campus.

The State House sits atop Beacon Hill, a mere block from Suffolk Law, and is the workplace of many Suffolk Law alumni.

Boston is one of the oldest cities in the U.S., with a rich colonial history. Many events leading to the American Revolution occurred steps from Suffolk Law.

With 10 Fortune 500 companies headquartered in this thriving business and financial community, our students enjoy a wealth of job opportunities at places like GE, Liberty Mutual, Raytheon, and New Balance.

TWO, THREE, OR FOUR YEARS

FLEXIBLE DEGREE OPTIONS

JURIS DOCTOR (JD)

Three years

Traditional full-time JD students can earn their degrees in three years, with time off in the summers for experiential learning, from externships to clinics to international study and practice.

EVENING JD

Three or four years

Part-time evening JD students take a reduced schedule with all classes offered after 6 p.m. Evening students can choose the traditional or accelerated track, to graduate in as few as 2.5 years (including two summers) or up to four years (classes in the fall and spring semesters only).

ACCELERATED JD

Two to three years

Accelerated JD students begin first year (1L) classes in May and attend classes year-round so they can earn their degrees

faster. Accelerated students have the same required coursework, take the same number of credits, and pay the same per-semester cost as traditional JD students — but graduate one year earlier. Available for day or evening students.

JD/MASTER OF BUSINESS ADMINISTRATION

Three or four years

This dual-degree program with Suffolk University's Sawyer Business School allows day and evening students to earn both a JD and MBA. Full-time students can opt for the accelerated three-year JD/MBA program, which includes classes during two summers.

JD/MASTER OF PUBLIC ADMINISTRATION

Four to six years

Representative courses for the MPA degree include Public

Service Human Resource Management, Quantitative Analysis, and Organizational Change.

JD/MASTER OF SCIENCE IN FINANCE

Four to six years

Combine legal expertise with high-level financial education.

JD/MASTER OF SCIENCE IN CRIME & JUSTICE STUDIES

Four to six years

Representative courses for the MSCJS degree include Restorative Justice, Critical Victimology, and Crime & Communities.

JD/LLM IN TAXATION

Three years (full-time only)

Accelerated JD/LLM in Tax students earn two degrees in three years (full-time only) including an intensive 12-credit, 10-week summer program.

STUDY LAW AT NIGHT

The Evening Division is designed for students who want to pursue a legal education on a part-time basis. It can be completed in four years (eight semesters) of part-time study.

First-year evening students typically attend classes three evenings a week beginning at 6 p.m. A total of 84 semester hours is required to earn the JD degree.

In the Accelerated JD Program, evening students attend classes part-time for eight straight

semesters, including summers, to graduate in two and a half to three years.

Evening students regularly contribute to Suffolk Law's vibrant community. They participate in moot court competitions, law journals, and student organizations.

As a candidate for admission, you must choose to apply to either the Day or the Evening Division.

suffolk.edu/law/evening

32%

of Suffolk Law students are in the evening program

Evening JD

U.S. News & World Report 2021

Sample 1L Evening Schedule

TIME	MONDAY	WEDNESDAY	THURSDAY
6 p.m.	Torts	Contracts	Torts
7 p.m.	Torts	Contracts	Torts
8 p.m.	Contracts	Civil Procedure	Legal Practice Skills
9 p.m.	Civil Procedure		Legal Practice Skills

NOTE: Sample schedule. Each student's actual 1L schedule will vary. All evening classes end by 9:45 p.m.

DOING MORE FOR VETERANS

YELLOW RIBBON PROGRAM

Suffolk University is a proud participant in the Post-9/11 GI Bill Yellow Ribbon Program. Suffolk's financial commitment—combined with government allowances—enables eligible veterans to cover the cost of tuition, fees, and books in any University degree program.

Yellow Ribbon provides qualified veterans tuition assistance of up to \$25,000 per academic year. This benefit is made available to veterans with at least 36 months of aggregate active duty service on or after September 11, 2001, as well as individuals with at least 30 continuous days of active duty

service who have been discharged with a service-connected disability. Candidates must have also received an honorable discharge to qualify for Post-9/11 GI Bill benefits.

VETERANS BENEFIT PROGRAMS

The majority of military benefit programs are designed to finance your education outright. The only exception could be the Post-9/11 GI Bill. Please contact the U.S. Department of Veterans Affairs to determine if you meet eligibility requirements and to learn more about available benefits. Veterans, dependents, and spouses must apply for educational benefits

through the VA. Dependents and spouses wishing to apply for the Post-9/11 GI Bill must first have the veteran transfer benefits to them through the TEB form.

FEDERAL AID

You may be eligible for grants and loans regardless of your eligibility for military benefits. You do not have to accept the loans and there may be forms of aid that you do not have to pay back.

SUFFOLK LAW VETERANS ASSOCIATION

The Suffolk Law Veterans Association supports former, current, and future military service personnel and their families during their transitions into and out of the Suffolk Law community.

The organization also:

- Shares information on veterans' benefits
- Promotes awareness of military and national security-related issues within the Suffolk Law community
- Provides information on military affairs and Judge Advocate General programs
- Fosters camaraderie among Suffolk Law students of diverse military backgrounds

New students can connect with the Suffolk Law Veterans Association during orientation.

Volunteers plant flags in Boston Common for Memorial Day weekend to remember every Massachusetts service member killed in action since the Revolutionary War.

“Public service is something that I am passionate about. Suffolk really dominates that sector around here, and there was no other place I wanted to go.”

PREPARING FOR SMALL FIRM PRACTICE

THREE-YEAR COURSE OF STUDY AND PRACTICE

The Accelerator-to-Practice program is a three-year course of study and practice to train students to join or run a community-based law practice. Students accepted into the program enroll in a skills-based curriculum and represent clients in Suffolk's in-house law practice.

PRACTICAL EXPERIENCE YEAR BY YEAR

The three-year program offers an expanded professional development and skills curriculum, technological training, supervised internships, associate-level work in an on-campus law practice, and career development.

- First Year – Suffolk Law Core Curriculum
- First Summer – Small Firm/Solo Practice Internship
- Second Year – Accelerator Curriculum
- Second Summer – Small Firm/Solo Practice Internship or Accelerator Practice
- Third Year – Accelerator Practice and Accelerator Curriculum

ACCELERATOR CURRICULUM

During their second and third years, Accelerator students take classes designed to expand their professional and technological development.

Classes include:

- 21st Century Legal Profession
- Coding the Law
- Interviewing and Counseling/ Negotiation
- Lawyering in the Age of Smart Machines
- The New Market for Legal Services
- Process Improvement and Legal Project Management

IN-HOUSE LAW PRACTICE

The Accelerator Practice is a law practice embedded inside Suffolk Law School. Accelerator students work as student lawyers under the supervision of a clinical law professor and post-graduate fellows. Students also learn the business and technology skills needed to join or run a sustainable community-based law practice.

ABA LEGAL ACCESS AWARD

The ABA awarded Suffolk Law its top honor for innovators in providing legal services to average-income Americans.

FIRST-YEAR SUMMER JUDICIAL INTERNSHIP

Each summer, about 100 first-year Suffolk Law students work alongside judges in courthouses all over New England. One of the driving forces behind the success of the program is the eagerness of area judges to be involved.

Alumni have said that this is something that everyone should do their first year. Students are able to see law, and lawyers, in practice, and get invaluable research and writing experience.

1 in 4

Law alumni

"It's pretty amazing to witness different trials, and see the lawyers in action and their different styles. You really learn what you should do in court and what not to do."

—Jessica Gonzalez, JD'16,
Intern for Brookline District Court Judge
Mary Dacey White, JD'78

BUSINESS LAW, FINANCIAL SERVICES LAW & TAX LAW

Business lawyers assist their clients in resolving disputes. More importantly, they structure transactions, advise on regulatory issues, write contracts, and think ahead—all to keep disputes from arising in the first place.

A business lawyer's clients range from large established corporations to emerging businesses and small and closely held businesses. Some practice solo, others in small or large firms, or in-house. They need expertise in law and finance to guide banks, businesses, investment houses, pension and mutual funds, and investment advisers through an increasingly complex compliance and regulatory environment.

Tax lawyers may advise clients on the best way to structure transactions or financial affairs, or may represent the government interpreting or drafting tax legislation.

CRIMINAL LAW & TRIAL ADVOCACY

From courtroom to classroom, Suffolk Law trains students to be trial lawyers. We offer basic and advanced courses in both civil and criminal trial advocacy, a variety of specialized litigation courses, and nine nationally ranked clinics so that students can practice what we teach.

NATIONAL TRIAL TEAM

The apex of Suffolk Law's Trial Advocacy Program is the championship mock trial team. Suffolk has won New England regional championships 28 times in the past 32 years, regularly advancing to the invitation-only national championships. The team participates in at least five national and invitational tournaments each year.

ENVIRONMENTAL & ENERGY LAW

Environmental law has evolved over the past half-century from a specialty area to a primary element of legal practice. It now affects every aspect of law, from administrative regulation to real estate to primary national and international policy on global issues.

Environmental and energy law education at Suffolk Law involves:

- Conventional environmental practice, e.g., permitting and enforcement of permit emission restrictions to the air and water

- Setting environmental policy, enacting laws, and promulgating regulations in the U.S. and internationally
- Site contamination and the broad web of secondary legal actions filed to determine liability for environmental contamination
- Implementing sustainable development strategies at local, state, national, and international levels

FAMILY & JUVENILE LAW

Attorneys who practice in the area of family and juvenile law frequently see clients at their most distressed. They represent parents who have lost custody of their children to the state or to the other parent, children who have been arrested, or families who are worried about an elderly relative's ability to continue caring for herself—to name just a few common issues. But these lawyers also help clients achieve great joy, when handling an adoption, or helping a same-sex or infertile couple make legal arrangements for artificial reproduction.

HEALTH & BIOMEDICAL LAW

The field of health and biomedical law encompasses broad issues of public health and regulatory policy as well as intensely personal individual and family concerns. Our resident faculty lead a curriculum that also involves scholars and experts from across the country, enabling students to learn from renowned practitioners in other cities. Local internships and events on campus capitalize on Suffolk Law's dynamic relationship with the legal and health care communities in Boston, as does the evening program, which attracts students with experience in health care, insurance, and biotechnology. This substantial field has been ranked as one of the top two hottest practice specialties of the future by *The National Jurist* magazine.

INTELLECTUAL PROPERTY & PATENT LAW

Intellectual property law deals with protecting products of the mind. With this concentration, you will enjoy a hands-on, skill-focused education through innovative clinics and traditional classroom learning. Because of our longstanding focus in this area, more patent law partners in Massachusetts law firms graduated from Suffolk Law than any other law school.

You will delve into patent law and trade secret law, which tend to focus on technology and inventions. You will also learn copyright law, which applies the law to electronic and digital media to control their duplication and distribution. Finally, trademark law and right of publicity law focus on product marketing and brand development and the words or symbols that the public associates with a product.

suffolk.edu/iplaw

WHAT IS PATENT LAW?

- Patent prosecution involves obtaining a patent from the U.S. Patent and Trademark Office for an invention. Only registered patent attorneys can engage in this work.
- To be a registered patent attorney, you must have a science background in addition to a law degree.
- Patent infringement litigation, which can be done by any attorney, is one of the most costly types of litigation.
- Patent law also involves licensing patented technology and developing strategic patent portfolios.

INTERNATIONAL LAW

The exponential rise in international transactions and the global movement of goods and people have ensured that legal systems must adapt to a new transnational reality. Almost every field of law now contains a substantial international element. Training students in a variety of international law subjects equips them to practice in a legal world that reaches beyond national borders.

Suffolk Law offers a large number of international courses. We have well-established study abroad and semester exchange programs, and offer many international internship options with both law firms and international public interest organizations.

- Former Director of Middle East North Africa Training, Physicians for Human Rights
- Private Practice Immigration Attorney
- *Pro bono* Asylum and SIJS Attorney, Kids in Need of Defense

HUMAN RIGHTS & INDIGENOUS PEOPLES CLINIC

Clinic students serve Native American tribal governments and indigenous organizations, supporting their nation-building activities and advocacy efforts. Students participating in this clinic may work with a division or branch of a tribal government, such as the judiciary, tribal council, or a government department. Clinic cases are typically split evenly between domestic and international issues.

In past years, clinic students have:

- Drafted procedural rules for tribal court
- Represented a tribe in a land transaction
- Filed a petition to the Inter-American Commission on Human Rights on behalf of indigenous communities in Guatemala
- Presented evidence to the UN on the Indian Child Welfare Act

IMMIGRATION LAW

Immigration law can generally be divided into two large spheres—administrative or affirmative practice and deportation defense. Administrative practice involves petitioning the U.S. government to allow a person to migrate to the U.S. on an immigrant or nonimmigrant visa or as a refugee. Deportation defense involves more classic litigation and is most like criminal defense in practice because of the high rates of

immigration detention and the defensive posture.

Lawyers at nonprofit agencies tend to focus on humanitarian-based immigration, such as political asylum claims, visas for victims of domestic violence, and visas for trafficking victims. Nonprofit lawyers also increasingly handle deportation defense as the number of detentions and deportations grows.

Some nonprofits and small firms specialize in immigrants' rights, which includes complex federal litigation, writs of habeas corpus, and administrative practice. In the government sector, lawyers can work as policymakers, prosecutors in deportation cases, and legislative aides to members of Congress specializing in immigration legislation.

PUBLIC INTEREST LAW

Many students enter law school with a passion for a particular issue or set of issues, such as education or civil rights. Others develop a strong interest in a substantive area during law school. Public interest work covers a huge range of issues from human rights to environmental protection. If you want to help people when you graduate from law school, public interest law is the right career choice for you. As international advocates, general counsels to environmental nonprofits, or state lawmakers, Suffolk Law graduates are making a difference in the U.S. and around the world.

Here are a few of the ways we define public interest law:

- Promote and protect the public's interest
- Assert and defend human rights, civil rights, and civil liberties in the U.S. and around the world
- Preserve and protect the world's health and environmental resources for the public good
- Provide *pro bono* representation to individuals and communities who otherwise might not have access to justice
