

## ***YOU DON'T NEED TO BRING AN INTERNATIONAL PHONE PLAN FROM THE USA.***

Suffolk Madrid hands out Vodafone (local phone company) SIM cards to all SUMC students. This service is included in the comprehensive fee.

We are keenly interested in all students having an operative cell phone as soon as possible upon arrival in Spain, so as to better ensure their safety and well-being.

**Students are expected to carry their Vodafone SIM card on a working phone at all times, as this is our way of communicating in case of emergency.** SUMC-issued SIM cards are part of a universal message system, whereby all students can be promptly informed of any extenuating circumstances that might occur.

**VERY IMPORTANT:** Make sure your personal phone is unlocked in order to be able to use our SIM card on it.

### **Our monthly plan includes:**

- ✓ **2GB of data**
- ✓ **150 minutes (from Spain and while in *roaming*)**
- ✓ **Unlimited calls within the Suffolk network**
- ✓ **1000 SMS in Spain**
