

Campus Tour - A Day in the Life of a Suffolk Student Transcript

Transcript

0:03 One of the best things about Suffolk and
0:05 the reason why I'm actually here and
0:07 made the choice to come here is because
0:09 they have that smaller class size and so
0:11 you get that one-on-one time with the
0:13 professor but you really wouldn't get at
0:14 a bigger school. And I also just love in
0:17 all my classes especially, my major
0:19 courses for journalism, we do a lot of
0:22 hands-on work, and so we'll be working
0:23 with the camera just getting that
0:25 hands-on experience is really great
0:27 because I feel much more prepared as I
0:30 get ready to enter the professional
0:32 world. I am the vice president of black
0:34 student union, so during activities
0:36 period I do a lot of leadership roles. In
0:39 terms of that, sometimes I meet with my
0:41 executive board members and have
0:43 conversations about when our next
0:45 meeting is going to be, or I'm also a
0:47 diversity peer educator on campus, which
0:50 allows for me to facilitate a lot of
0:51 social justice workshops for staff,
0:53 students, faculty members. I'm a law major
0:56 with a double minor in math and Spanish
0:59 so ,with a double minor, that does come
1:01 with a lot of academic work. Once I wrap
1:03 up with my classes I normally go to the
1:05 Sawyer Library. I normally book a room in
1:07 advance because they do get booked very
1:09 quickly here. I normally take about two
1:11 to four hours to myself where I'm able
1:13 to work on homework,
1:15 um prepare for my LSAT exams, and then
1:18 study for any regular class exams that I
1:20 have coming up, and then prepare my
1:22 following week. Everyone wants to travel
1:24 abroad. Everyone wants to be able to see
1:26 the world. When you come to Suffolk you
1:28 are encouraged to do it, it's something

1:30 that like you hear about almost every
1:31 single day. I have a couple of friends
1:33 that both did abroad that went to the
1:35 Madrid campus and they literally
1:36 traveled all over Europe. They were in
1:38 Portugal one day, they were in Paris the
1:40 next, and that's something that you can't
1:42 really say that your college offers
1:43 unless you actually do it, and Suffolk's
1:46 gonna definitely encourage you to do
1:47 that.
