Welcome Back, Rams

COVID has made it challenging to function as a student organization and hold events on campus. Despite those challenges, our student organizations have been resilient and persevered. They have continued to hold meetings and events both virtually and in-person; and in accordance with COVID safety guidelines. Suffolk is a place where people seek to get to know one another and build lasting personal relationships. Multiple events throughout the year are designed to keep you involved, active, and engaged in our vibrant campus community. In a time that requires us to socially distance and prevents large events, it is more important than ever to meet other students and make friends by joining student organizations and getting involved.

We encourage you to get involved in student organizations and leadership roles on campus. The range and diversity of student organizations on campus reflect the rich community at Suffolk University. Involvement in a student organization will complement what you are learning in the classroom and create opportunities for friendship and support. You will also gain valuable leadership skills and professional preparation through your experience to succeed in your next steps after graduation.

Student Involvement enriches the social and intellectual life at Suffolk University. As a student, you contribute significantly to the process by not only supporting these activities through your attendance but by actively engaging in them as a planner, coordinator, volunteer, or facilitator. Whatever form it takes, be it in an elected position in SGA, member of a cultural organization, involvement in community service programs, or attending campus events sponsored by Program Council, these are essential steps to becoming a more connected and engaged college student.

If you have questions or need more guidance regarding getting involved at Suffolk, please do not hesitate to contact the Student Leadership and Involvement office located in the Sawyer Building, Suite 320, in person or by any virtual medium you prefer, all listed below.

Stay safe and healthy,
David DeAngelis
Assistant Dean, Division of Student Affairs
Director, Office of Student Leadership and Involvement

A new student organization is one that is completing the registration process for the first time, or one registering after a period of inactivity of one semester or longer. Prior to completing a registration packet for the first time or reactivating a club or organization, a student should:

1. Meet with the Associate Director of SLI or designee to discuss plans and review the process.

2. Appoint an acting chairperson and secretary to conduct initial meetings and record meeting proceedings.

3. Certify in writing that at least 6 Suffolk University students are interested in becoming active members of the proposed organization.

4. Draft a constitution for the proposed organization, including the organization’s official name, purpose, and the rules under which it will operate, and the names of any local, state or national organizations to which the proposed organization will be affiliated.

5. Select a faculty or staff advisor and submit a letter of confirmation for his/her willingness to serve in this capacity (an Advisor Consent Form can be used for this purpose).

6. Complete all the necessary paperwork in the registration packet.

7. Make sure that the President and Treasurer attend a Programming 101 training workshop.

Once these steps are completed, a new club is ready to be registered.

Official notification of completed registration will be given by a designee of the Student Leadership and Involvement Office. Once an organization completes all the required steps they will be assigned a Program Advisor. They will be expected to follow all rules and regulations of a Suffolk University Student Organization.
