Welcome!

Student Involvement enriches the social and intellectual life at Suffolk University. As a student leader, you contribute significantly to the process by not only supporting these activities but actively engaging in them as a planner, coordinator, volunteer or facilitator. Whatever form it takes, be it in an elected position in SGA, member of a cultural organization, involvement in community service programs, or by attending campus events sponsored by Program Council, these are important steps to becoming a connected and engaged college student.

Student organizations regularly make contributions to the enhancement of the Suffolk University community and Suffolk University's staff is committed to providing as much support to these diligent efforts. As a result of these many contributions, this manual will help you and your organization thrive to excel while attending Suffolk University.

As a student organization leader, you are responsible for knowing and following the policies and procedures in this manual and other documents, including, but not limited to the Student Handbook; and the Finance Committee By-Laws, updated annually by the Student Government Association.

If you are uncertain about a policy, please do not hesitate to contact the Student Leadership and Involvement main office located in the Sawyer Building, Room 320.

Call us at (617) 573-8320 or stop by our office any time. We hope that this manual is as helpful to you as we have intended.

Best wishes to a productive year,

David DeAngelis

Assistant Dean, Division of Student Affairs

NEW STUDENT ORGANIZATION REGISTRATION

A new student organization is one that is completing the registration process for the first time, or one registering after a period of inactivity of one semester or longer. Prior to completing a registration packet for the first time or reactivating a club or organization, a student should:

1. Meet with the Associate Director of SLI or designee to discuss plans and review the process.
2. Appoint an acting chairperson and secretary to conduct initial meetings and record meeting proceedings.
3. Certify in writing that at least 6 Suffolk University students are interested in becoming active members of the proposed organization.
4. Draft a constitution for the proposed organization, including the organization's official name, purpose, and the rules under which it will operate, and the names of any local, state or national organizations to which the proposed organization will be affiliated.
5. Select a faculty or staff advisor and submit a letter of confirmation for his/her willingness to serve in this capacity (an Advisor Consent Form can be used for this purpose).
6. Complete all the necessary paperwork in the registration packet.
7. Make sure that the President and Treasurer attend a Programming 101 training workshop.

Once these steps are completed, a new club is ready to be registered.

Official notification of completed registration will be given by a designee of the Student Leadership and Involvement Office. Once an organization completes all the required steps they will be assigned a Program Advisor. They will be expected to follow all rules and regulations of a Suffolk University Student Organization.
